

第六章：

p176 6.3 通过广播接收器实现两个 App 之间通过自定义广播进行数据通信。

1、运行界面：

①广播接收页面：

②广播发送页面：

广播接收器注册成功：

```
D -----Receiver-----  
D Action: android.net.conn.CONNECTIVITY_CHANGE  
D URI: intent:#Intent;action=android.net.conn.CONNECTIVITY_CHANGE;launchFlags=0x4200010;i.networkType=0;  
D app_time_stats: avg=3563.38ms min=1.36ms max=113917.88ms count=32
```

发送广播并被广播接收器接收：

```
D -----Receiver-----  
D Action: android.net.conn.CONNECTIVITY_CHANGE  
D URI: intent:#Intent;action=android.net.conn.CONNECTIVITY_CHANGE;launchFlags=0x4200010;i.networkType=0;  
D app_time_stats: avg=3563.38ms min=1.36ms max=113917.88ms count=32  
D -----Receiver-----  
D Action: MyBroadcastReceiver.Custom  
D URI: intent:#Intent;action=MyBroadcastReceiver.Custom;launchFlags=0x1000010;component=com.example.myapplication;extra=自定义广播的info: 计算机2101班刘美璇
```

2.部分代码：

①接收广播器部分代码：

```
public class MyBroadcastReceiver extends BroadcastReceiver {  
    private static final String TAG = "MyBroadcastReceiver";  
    @Override  
    public void onReceive(Context context, Intent intent) {  
        Log.d(TAG, "-----Receiver-----");  
        Log.d(TAG, "Action: " + intent.getAction());  
        Log.d(TAG, "URI: " + intent.toUri(Intent.URI_INTENT_SCHEME));  
    }  
}
```

```

        // 自定义广播
        if ("MyBroadcastReceiver.Custom".equals(intent.getAction())) {
            Log.d(TAG, "自定义广播的 info: " + intent.getStringExtra("info"));
        }
    }
}

```

②发送广播器部分代码：

```

public class MainActivity extends AppCompatActivity {
    @Override
    protected void onCreate(Bundle savedInstanceState) {
        super.onCreate(savedInstanceState);
        setContentView(R.layout.activity_main);
        //发送标准广播
        findViewById(R.id.button_send_broadcast).setOnClickListener(new
View.OnClickListener() {
            @Override
            public void onClick(View v) {
                Intent intent=new Intent();
                intent.setAction("MyBroadcastReceiver.Custom");
                intent.putExtra("info","计算机 2101 班刘美璇");
                intent.addFlags(Intent.FLAG_ACTIVITY_PREVIOUS_IS_TOP);
                sendBroadcast(intent);
            }
        });
    }
}

```
